

BREW EXPRESS®

BE-H4 | THE AUTOMATIC SELF-FILLING 4-CUP COFFEE SYSTEM

4
CUP

MAKES ANY ROOM FEEL LIKE THE MASTER SUITE. The revolutionary new design of the Brew Express blends contemporary style, performance and convenience into an easy-to-use, appliance that makes brewing coffee and hot beverages a pleasure instead of a burden. The Brew Express installs into the wall and directly to the water and power supply, so it integrates into any kitchen, bath, or wet bar. You will enjoy a fool-proof and convenient brewing experience, all without spilling a drop of water.

Also available with single button brew operation.

FEATURES

1 ALL YOU ADD IS COFFEE

The Brew Express self-fills on command and lays down an even spread of hot water over the ground coffee beans at the perfect temperature.

2 BUILT-IN-THE-WALL

The Brew Express fits in the wall so it fits right in to any room.

3 PAUSE-N-BREW SENSOR

The carafe is safe to remove while brewing and the Brew Express shuts off after five minutes when the carafe is not in place.

4 THERMAL CARAFE

Keep coffee warm without the need of a plate warmer. Since the carafe doesn't get hot it won't burn countertops or other surfaces.

5 MORE COUNTER SPACE

The Brew Express is built-in-the-wall, leaving more room on countertops.

6 COOL CARAFE PLATFORM

With the insulated carafe there's no need for a hot plate, so there's no burned coffee—or fingers.

SPECIFICATIONS

DIMENSIONS

Overall (Finished Unit with Rough-in Box)
Approximately 9.6" x 10.8"

Rough-in Box (Mounting Structure)
